Full Stack React Developer

Highly skilled React Developer with 4+ years of experience developing and implementing full-stack architectures that have significantly increased page load speed and user engagement. Passionate about building accessible sites and proficient in collaborating with designers to integrate user-facing elements with server-side logic, implementing automated testing platforms, and optimizing components for maximum performance. Adept at identifying and resolving performance and scalability issues, staying up-to-date with emerging technologies and frameworks.

WORK EXPERIENCE

Chris Agnew LLC · 06/2020 - Present

Lead Full-Stack React developer and E-Commerce expert

» Self-employed Full-Stack JavaScript/TypeScript developer with consistent use of Next.js/React, Tailwind CSS, Node.js, and various Headless CMS platforms.

» Developed and launched new website features while collaborating with designers, enhancing user experience and engagement for my previous employer, Advanced RV, and local business VAPOR REV INC.

» Coached other professional developers on JavaScript ES6+ and Next.js on the Upwork platform

Central Garden and Pet · 02/2023 - 07/2024

E-Commerce and Marketing Web Developer (TDBBS Brands)

» Optimized JavaScript and Shopify Liquid code, leading to a 100% improvement in site speed and performance over one weekend, enhancing user experience and higher conversion rates.

» Executed website optimization to meet WCAG standards in just 3 weeks, boosting user engagement and ensuring inclusivity for all visitors.

» Implemented a new strategy for uploading media using image compression and file type to reduce file size by 90%.

» Established a protective solution for Amazon that prevented $2.4 million in annual losses to scammers in 6 months, securing the company's monetary resources

» Served as the main technical expert for web-related challenges, debugging, and ensuring uninterrupted online operations

Advanced RV LLC · 10/2021 - 11/2022

Full-Stack React Developer & E-commerce Lead

» Migrating from a monolithic WordPress site to a headless website using Next.js, Tailwind CSS, Node.js, and Contentful CMS improved website performance by 50%, resulting in a 50% decrease in bounce rate.

» Led e-commerce team to achieve a 150% profit increase in Shopify sales in 9 months

» Developed a PTO Tracker App with Google App Script, focusing on automating processes to enhance efficiency before engineering a better solution with TypeScript, Tailwind CSS, and Firebase(Firestore/auth)

Intellitronix · **08/2019 – 04/2020**
Shipping & Purchasing Manager

» Created a new system for Shipping Department processes, which resulted in my being promoted on my second day on the job and increased shipping efficiency by 50%.

» Reduced shipping materials costs by 80% through strategic supplier negotiations, resulting in significant cost savings and improved operational efficiency.
